OPITO Control Room Operator (CRO) Emergency Response Assessment

At Prime Atlantic Safety Services (PASS), we are dedicated to shaping safety professionals equipped to perform under pressure and lead with precision. As part of our commitment to delivering world-class, internationally accredited training solutions, we are proud to offer the OPITO Control Room Operator (CRO) Emergency Response Training.

This specialized training program is designed for personnel assigned to operate within a control room during major emergencies, especially in offshore oil and gas installations. The course focuses on developing the knowledge, situational awareness, and communication skills essential for effectively managing emergency responses from a control room environment.

Delivered by experienced instructors in a realistic and immersive training setup, the OPITO CRO course ensures participants are not only compliant with global standards but are also confident and capable in their critical roles.

With PASS, you are not just training for compliance—you're preparing for command.

INSTRUCTOR LED

The OPITO approved Control Room Operator Emergency Response assessment programme is aimed at personnel who are about to be appointed to a CRO position or to those who are already serving as a CRO.

This assessment programme is designed for Control Room Operators (CRO) who require their Emergency Response knowledge and skills to be assessed in dealing with emergencies and critical situations to OPITO Standards.

An OPITO Approved Control Room Operator certificate indicates that the delegate has achieved a level of competence required to be recognised as a OPITO Certified Control Room Operator.

- Internationally Recognised
- Ongoing Professional Development
- Assessed by Industry Experts
- State of the Art Facilities
- Multiple Simulation Suites
- Conventional and Remote Assessments available

OPITO Control Room Operator (CRO) Emergency Response Assessment

Course Duration

One day for assessment
One day coaching (optional)

Awarding Body

OPITO

Pre-requisites

Learners must provide a formal declaration from their employer confirming that the learner has achieved the Performance Criteria in Outcome 1 and 2, in the workplace and that the learner has been deemed ready for formal assessment against outcomes 3- 6 (details of the evidence required will be issued with the course joining instructions and will be assessed during the course).

Units

To achieve the CRO Controlling Emergencies Competence the learner will need to complete the 1 mandatory unit.

Unit OIS - 46

Controlling Emergencies and Critical Situations

Outcome

To successfully complete this training, learners will understand:

1. How to maintain a State of readiness
3. How to control critical situations
5. How to co-ordinate the response to emergencies

To successfully complete this training, learners will perform:

2. How to maintain a State of readiness
4. How to control critical situations
6. How to co-ordinate the response to emergencies

Each learner will be assessed against the performance criteria specified within this Product under simulated conditions using a minimum of 2 and a maximum of 3 emergency scenarios based on the type of asset where the learner is normally required to fulfill the CRO role as agreed and confirmed by the Duty Holder.

Realistic emergency scenarios must cover:

1. Threat to life
2. Threat to environment
3. Threat to plant and equipment

Outcome

Upon completion of the assessment, the learner shall be informed of the assessment decision and the employer shall be notified of the outcome of the assessment within one working day. A written report identifying the outcomes of assessment and details of any further training requirements shall be provided to the delegate and their employer within 14 days.

Certification

An OPITO Approved CRO certificate will be issued to learners who have been successfully assessed against all of the Performance and Knowledge Criteria.

Venue

All training and appraisals will be delivered at our facility located at:

**Old Lagos/ Ibadan Express Way,
Opposite Saw Mill Ipara Remo North,
Ogun state.**

EMERGENCY • COMMAND • RESOURCES
