# our story

**S**afety is at the heart of who we are and what we do. We work with our clients to improve the knowledge and practical skills they require to prevent, control, and respond to life-threatening incidents and to ensure the protection of lives and assets.

We can do this because for over twelve years, we have developed the competencies required to deliver training in all areas of safety and emergency response, including water survival, basic and advanced firefighting and first aid, Management of Major Emergency Initial Response (MEMIR), scaffolding, rigging & lifting, and more. We also offer consultancy services, which allows us to design bespoke safety solutions to meet our clients' unique needs.

Over the years, we have built a solid team of Nigerian instructors who are able to deliver internationally recognized technical courses, making these courses readily available in-country thereby complementing the local content act of the Nigerian Content Development and Monitoring Board (NCDMB) in the oil and gas industry. We deliver these courses at our state-of-the-art training centre using simulations to create realistic life like scenarios that build confidence and enhance the effective transfer of knowledge.

We offer our services and solutions across various industries, including the oil and gas, manufacturing, and construction industries and the public sector.

At Prime Atlantic Safety Services (PASS), we pride ourselves in being a leader in providing safety solutions and we are proudly a 100% Nigerian company training locally to global standards.

safety  
*/ˈseɪfti/*

the condition of **being protected** from or unlikely to cause danger, risk, or injury

## our vision

To be the leading provider of integrated solutions for safety and emergency response operations.

## our mission

Bridging gaps with innovative solutions that build capacity and enable individuals and organizations to meet and exceed their safety and emergency response needs.

## our core values

We underpin our core values by the guiding principles of the Prime Atlantic Limited core values which are:

Passion for safety

Respect for others

Integrity

Mentoring & Motivation

Excellence in service delivery

### Collaboration

We achieve shared objectives by working as a team to create value and deliver quality solutions.

### Accountability

We are answerable for every responsibility that has been assigned to us.

### Responsiveness

We act in a prompt manner to the uniqueness of every business need.

### Innovation

We use a forward-thinking approach, which enables creativity and application that leads to continuous improvement.

### Dependability

We back up what we say by what we do.

**We are a leader**  
in the safety  
services industry  
in Nigeria.

Our training centre is the first of its kind in West Africa.

We are the first Construction Industry Scaffolders Record Scheme (CISRS) accredited training centre in Africa.

We are the first OPITO approved centre in Sub-Saharan Africa for the provision of Management of Major Emergencies Management - Initial Response (MEMIR) training.

First OPITO approved training centre in Africa for the provision of Offshore Emergency Response Team Member and Team Leader (OERTL) training.

**100%**  
wholly owned

**Over 30**  
Training Courses

# What we do

## Training

We deliver safety and emergency management training courses to global standards in our state-of-the-art centre.

## Technical Services

We offer customized innovative solutions to help ensure the safety of businesses, employees, and assets.

## Fire Brigade Management

We provide strategic and innovative fire brigade management services to safeguard and maintain high-risk industries' fire and explosion hazard management systems and facilities.

## Recreational Facilities

Our centre is the perfect venue for small or large corporate events, including Annual General meetings (AGMs), retreats, team bonding events, workshops, seminars, and many more.

# Our Training Courses

Our training courses are delivered to international standards using scenarios to provide each participant with real-life experiences they need to succeed in their sectors. Some of the service areas include but are not limited to:

Water & Sea Survival (BOSIET, HUET, SAS)

Offshore Emergency Response Team Member (OERTM) and Offshore Emergency Response Team Leader (OERTL) training.

First Aid  
Basic First Aid,  
First Aid at Work

Oil Spill Level 1 & 2 Training

Crisis & Major Emergency Management Training

Skills Development Lifting, Rigging, Banksman and Slinger, CISRS Scaffold Training

OIM-CE

E-Learning Courses

MISTDO Courses

## Water & Sea Survival

BOSIET, HUET, SAS

Our water survival training is carried out with state-of-the-art simulators and delivered by qualified instructors. Our OPITO approved water survival courses include:

- ✓ Basic Offshore Safety Induction and Emergency Training (BOSIET)
- ✓ Further Offshore Emergency Training (FOET)
- ✓ Helicopter Under Water Escape Training (HUET).

### Other Non-OPITO courses include:

- ✓ Survival at Sea
- ✓ Aircrew Wet Dingy Drill

## Fire Fighting

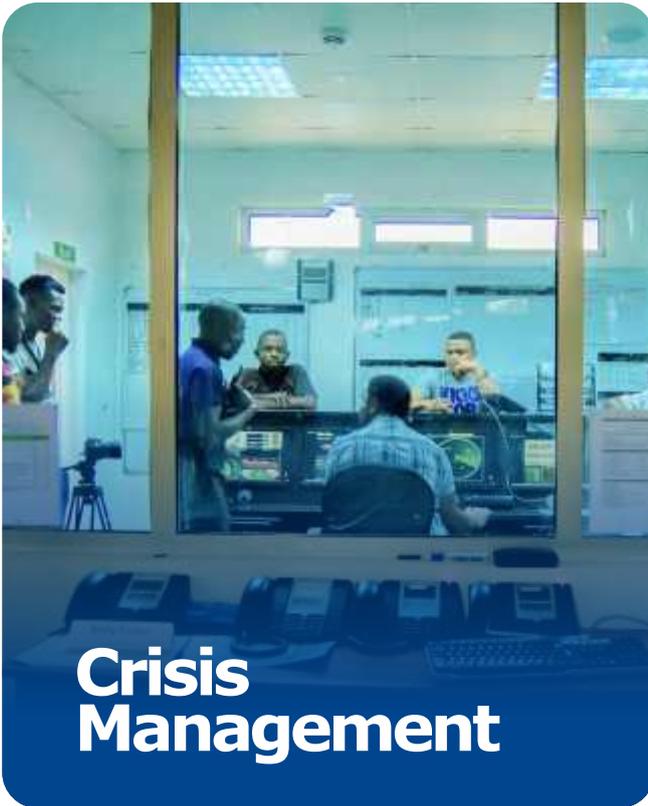

Firefighting courses are delivered to International standards to ensure first responders are equipped to manage onshore/offshore emergencies.

### Training services include:

- ✓ Offshore Emergency Response Team Member.
- ✓ Offshore Emergency Response Team Leader.
- ✓ Offshore Emergency Response Helideck

Team Member.

- ✓ Helicopter Landing Officer
- ✓ Helideck Assistant
- ✓ Helicopter Refuelling
- ✓ Onshore Emergency Response Team Member
- ✓ Breathing Apparatus Wearer's course
- ✓ Compartment Fire Behaviour Training

## Crisis Management

We offer a range of crisis management courses to enhance offshore/onshore operations and response to different crisis.

**These courses include:**

- ✓ Major Emergency Management – Initial Response (MEMIR, Opito Certified)
- ✓ Virtual OIM (OPITO Certified)
- ✓ Incident Command System
- ✓ Assessment of Emergency Response and Contingency Plan.

## First Aid

We ensure that our clients have a genuine training experience that prepares them to respond to emergency situations, especially on their job, from basic to advanced levels of First Aid training.

**Our first aid courses include:**

- ✓ Basic First Aid Awareness
- ✓ First Aid at Work
- ✓ AED Training

## Skills Development

We deliver high-quality and internationally certified technical training that ensures skills development in various fields. There are over 50 courses available in the following areas:

- ✓ Basic Scaffold Level 1 - 3 (CISRS certified)
- ✓ Rope Access Level 1 - 3 (IRATA certified)
- ✓ Rigger Stage 1 & 2 (OPITO certified)
- ✓ Lifting Operations

## MISTDO Courses

We are also certified to deliver training on MISTDO (Minimum Industrial Safety Training for Downstream Operations) courses, which include but are not limited to:

- ✓ Retail Outlet HSE Training (Basic Level)
- ✓ Petroleum Retail Outlet HSE Training (Advanced Level)
- ✓ Petroleum Bulk Storage HSE Training (Basic Level)
- ✓ Petroleum Bulk Storage HSE Training (Advanced Level)
- ✓ Product Haulage Training
- ✓ LPG Foundation Program
- ✓ LPG Bulk Plants Training
- ✓ Natural Gas Safety and Operations Integrity (Basic Training)
- ✓ Natural Gas Safety and Operations Integrity (Intermediate Training)
- ✓ Natural Gas Safety and Operations Integrity (Advanced Training)
- ✓ Lube Blending and Refilling Plants Operations Training

Prime Atlantic Safety Services (PASS) offers an extensive library of over **90 e-learning courses** available on our website at the

click of a button

**These courses include:**

- OPITO Digital BOSIET (2 Days Virtual; 1 day Practical at Our Training Centre)
- Confined Space (OSHA)
- Emergency Response And Evacuation Awareness (OSHA)
- Fire Prevention And Extinguishing Awareness (OSHA)
- Helicopter Safety
- Lifting Operations And Lifting Equipment Regulations (LOLER)
- Offshore Basic Spill Responder
- Personal Protective Equipment (PPE)
- Scaffold Safety (OSHA)
- Water Management - Dosing, Sampling, Cleaning And Maintenance
- Workplace Hazards And Personal Safety.

# Fire Brigade & Emergency Response Services

## Consultancy

---

Prime Atlantic Safety Services (PASS) provides consultancy services in the area of Emergency Response to Oil & Gas, Manufacturing, Public and Private sectors. Services offered include but are not limited to:

- Emergency Response Team Manning
- Emergency Management Planning
- Drill Exercises
- Fire Response Training

## Fire Administration, Manning & Support Services

### ADMINISTRATIVE MANAGEMENT

- Take charge of the day-to-day running and operations of all fire stations and ensure right standards are maintained.
- Effectively manage fire personnel, control work schedule of fire fighters and other personnel involved in fire and rescue services.
- Ensure right resources for all fire cover operations and execute routine fire safety inspections.

### MAINTENANCE & EQUIPMENT SUPPLY SERVICES

- Budget administration.
- Personnel administration.
- Records management.
- Incident reporting.
- And other services necessary to administer a full-service emergency services system.

### Emergency Response

- 24-hour emergency standby/response services.
- First-line response for emergencies in all areas of operation.
- Effective emergency response plan and procedure.
- Regular emergency preparedness exercises and drills (as well as basic and advanced training for all support teams).

### Maintenance & Equipment Supply Services

- Supply and Installation of Fire Fighting and Self-Rescue equipment to all fire stations.
- Liaise with Original Equipment Manufacturers (OEM) on retainership services.
- Ensure all 3rd Party maintenance contracts are in place.
- Execute first line maintenance, servicing, inspection and testing of all firefighting and emergency response equipment to ensure their reliability and integrity in readiness for any emergency response.

# Fire Protection Systems Installation and Maintenance Services

We provide bespoke Fire Rescue and Escape Equipment Inspection, Installation and Maintenance services in response to our clients' needs.

**Our focus is on the following areas:**

- Fire risk assessment.
- Equipment procurement.
- Fire Alarm System Management, installation, inspection, maintenance, and servicing.
- Emergency Response Intervention Team (24/7 response) –shift team emergency role.
- Emergency Training and Drill Exercises.
- Administration of relevant documentation, i.e., logs, emergency procedures, training materials, emergency signage, etc.

# Corrosion Control Using EONCOAT

EonCoat is a water-based solution but NOT paint. It is solution that forms a ceramic layer that chemically bond with the substrate, providing superior corrosion resistance even in harsh environments. This layer also passivates the metal, preventing corrosion from occurring beneath the coating.

These systems provide advanced protection against corrosion in harsh marine and offshore environments, where metals are continuously exposed to extreme weather, saltwater, and chemicals.

## EonCoat Protective Mechanism

EonCoat, a coating used to protect steel, covers and chemically bonds it to form a barrier that resists corrosion. It's not just a physical shield like paint; it changes the chemical nature of the steel's surface.

This protective layer prevents steel from reacting with harmful elements like oxygen and moisture, which cause rust.

## Benefits of using EonCoat

It has fire-resistive capability up to 600°C.

It is cost effective.

It can be applied on damp surface.

It be applied over a rusted iron surface.

It provides protection against corrosion in both atmospheric conditions and CUI environment.

It reduces asset downtime.

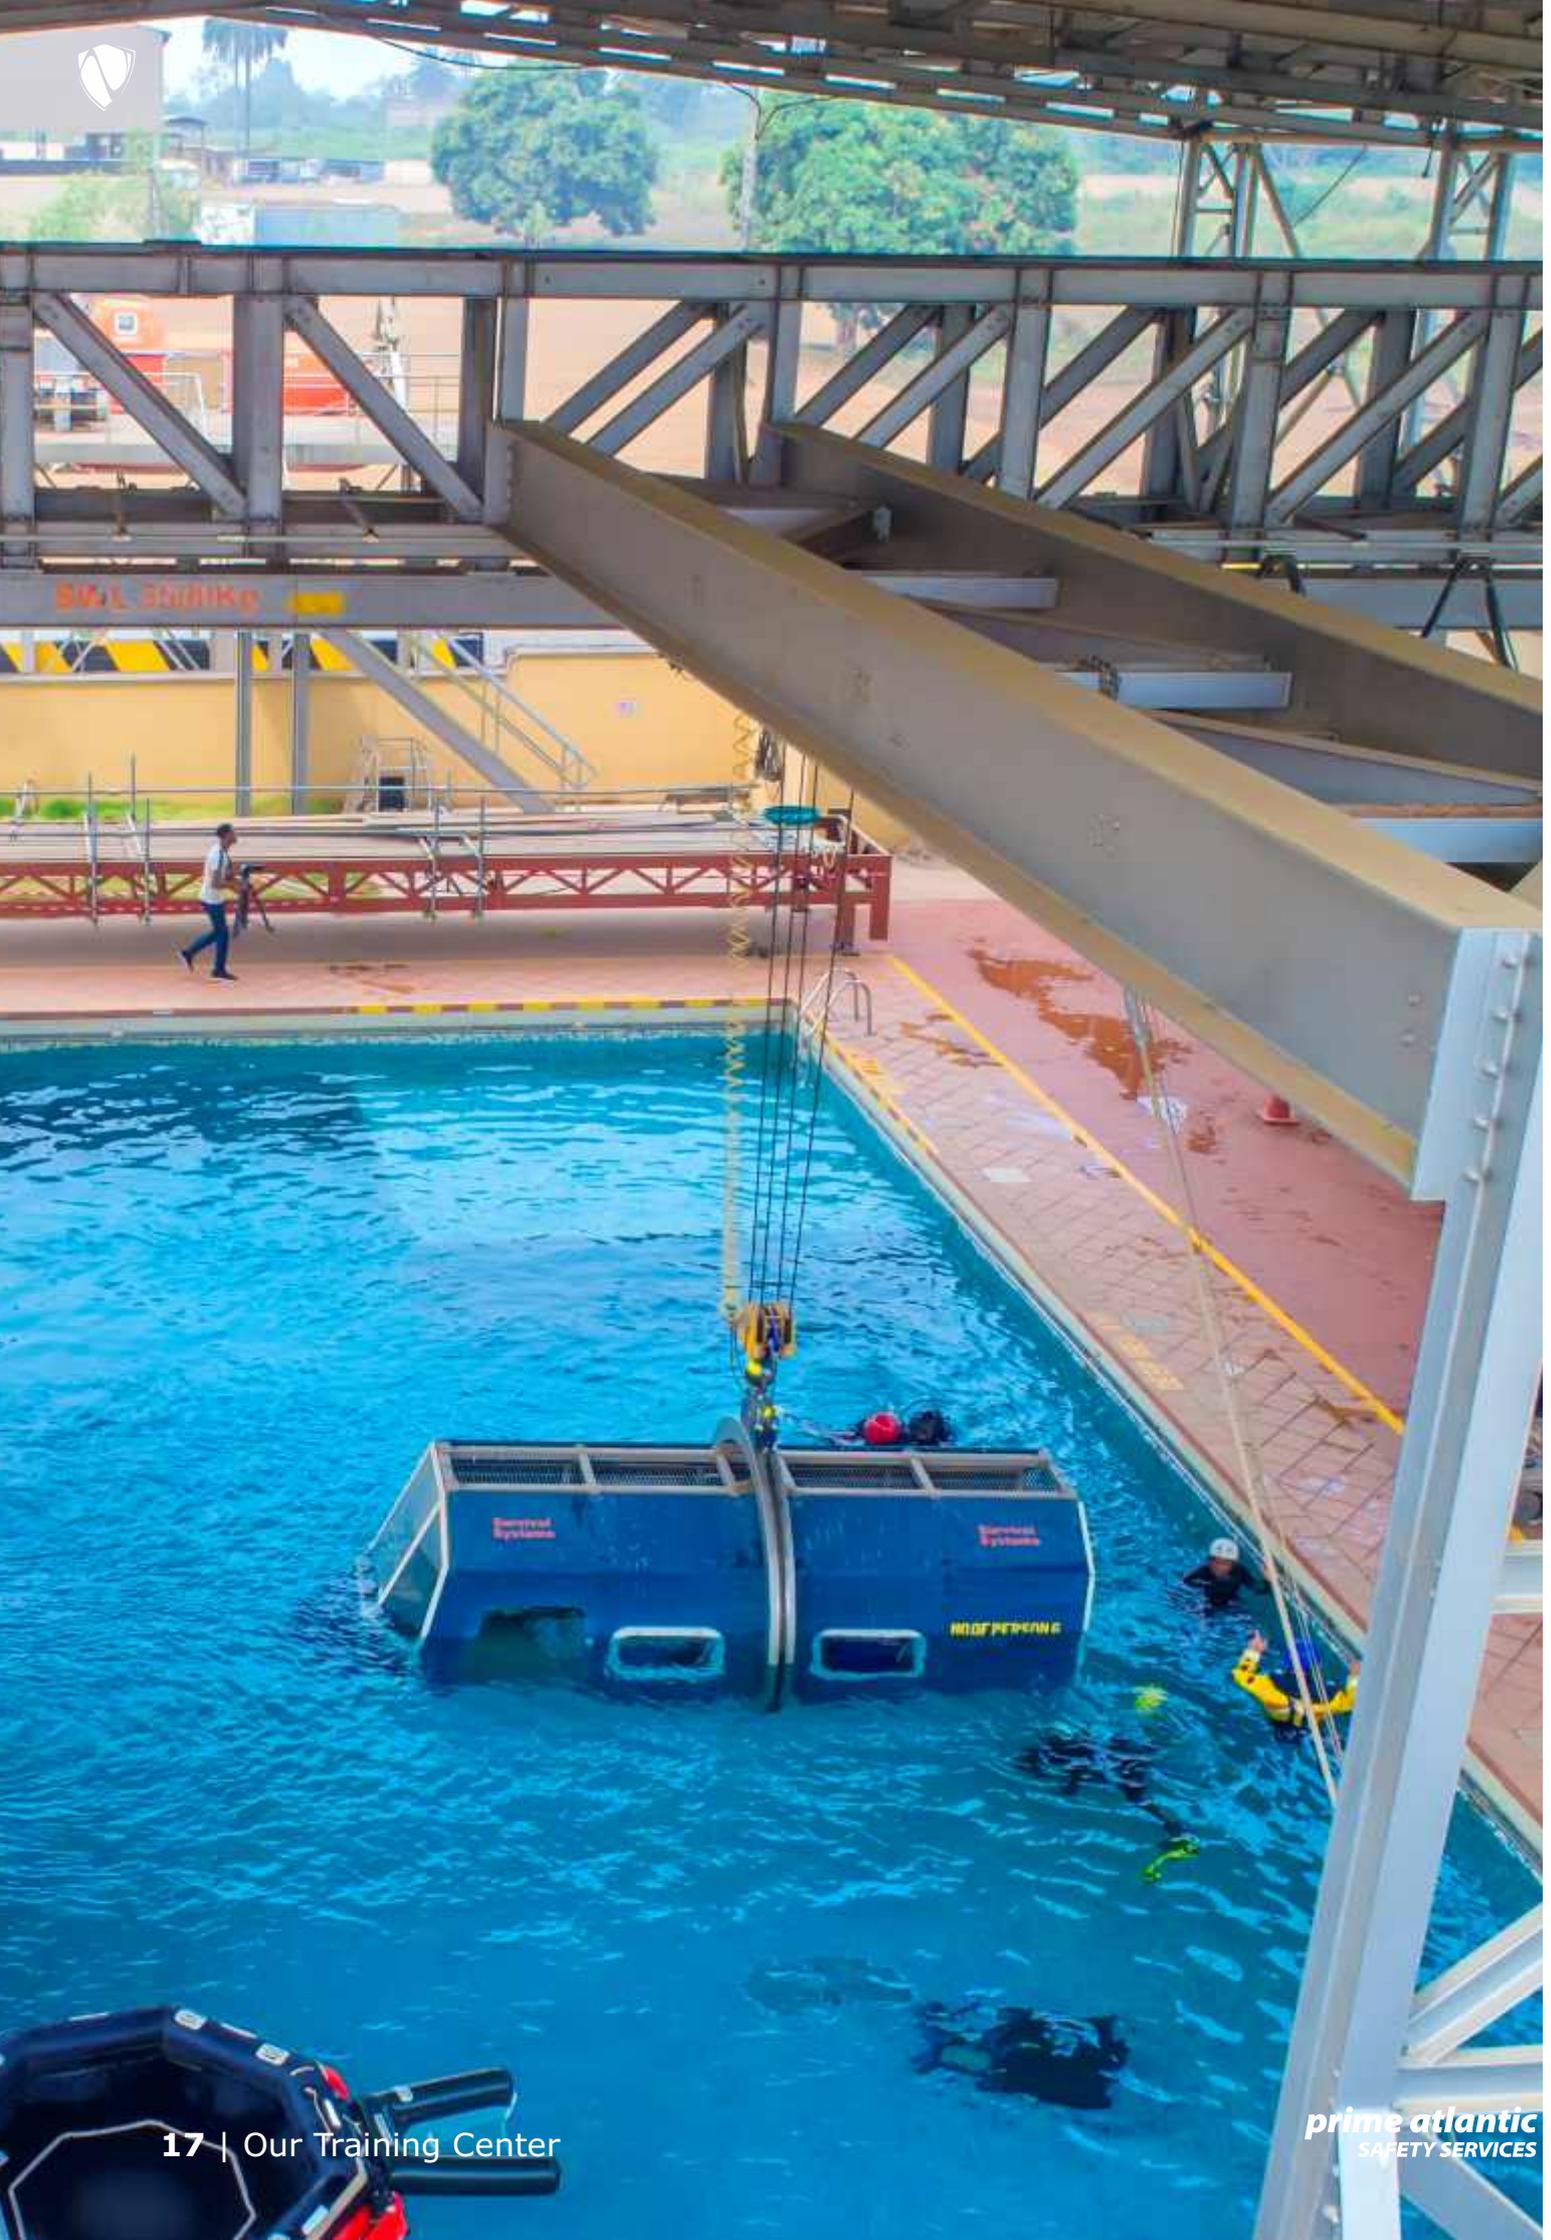

EonCoat offers substantial advantage over traditional epoxy in terms of applications and long-term performance. The simpler surface preparation, faster application process, and superior durability make EonCoat a cost-effective solution that enhance worker safety minimum environmental impact.

With EonCoat extended service life of 30 years and reduced maintenance requirements, EonCoat is a forward-thinking choice for industries looking to protect their asset while reducing operational cost.

# Our Training Center

Our world-class training centre is located on 18 acres of land in Ipara, Ogun state, Nigeria. It is fully equipped with state-of-the-art infrastructure required to deliver internationally accredited training courses.

# Features of our training center

Our center is the perfect location for team bonding getaways and corporate events, such as Annual General Meetings (AGMs), retreats, workshops, and seminars.

**The Prime Atlantic Safety Services (PASS) training center includes the following amenities:**

An administrative block, which comprises of modern facilities with conference rooms and offices that include state-of-the-art technology.

A computer-based training room with cutting edge IT infrastructure.

Accommodation  
73 En-suite Bedrooms  
with LCD TVs.

A restaurant that serves local and intercontinental dishes, including snacks for coffee and tea breaks.

24-hour security and electricity (with standby generator).

A 24-hour fully equipped clinic with a standby ambulance for emergency purposes.

Free high-speed wireless internet.

Recreational facilities, including a gym and a hub for table tennis, football, badminton, volleyball, lawn tennis, and a pool.

Ample parking space with capacity for up to 50 cars.

# Corporate Social Responsibility (CSR)

We are passionate about safety and that is why we ensure that we serve our communities to promote safety through awareness programs, free training and sensitization including welfare programs.

Over the years, we have demonstrated this commitment through our Corporate Social Responsibility (CSR) efforts and activities, which include the following:

- ✓ Donation of four (4) additional restrooms, refurbishment of the old block of 6 restrooms, and contribution to the USAID-donated borehole at the Local Government Primary School, Ipara Remo, Ogun State in September 2014.

- ✓ Renovation of two (2) classroom blocks and repainting of all the five (5) existing blocks of classrooms at the Local Government Basic Primary School Ipara - Remo, Ogun State in January 2014.
- ✓ Renovation and donation of science laboratory equipment to Ipara High School in Ipara in 2012.
- ✓ Eye screening for the elderly in Ogun state in 2016.
- ✓ Renovation of classrooms in Ipara Local Government Basic Primary School in 2016.
- ✓ Partnership with The Vision Center Medical Outreach Group of Babcock University Teaching Hospital, Ilishan-Remo to conduct a series of laboratory tests and applicable medical interventions for 250 individuals (men, women, and children) at the Local Government Basic Primary School in 2017.
- ✓ Free Basic First Aid and CPR 2019 Campaign, which trained 439 Nigerians, including domestic staff, facility personnel, traders, commercial bus drivers and conductors, government officials, youths, NYSC corp members, and students in Basic First Aid and CPR for free.
- ✓ Sponsorship of Ode Community Day in Ipara - Remo LGA. Donation of food and palliatives to indigenes of Ipara -Remo LGA during COVID-19 pandemic.
